

# Maternity Hospitals in Humber and North Yorkshire

There may be times when we suggest your care could be transferred to another site. This will always be your **informed choice** and we will discuss the options with you. The hospitals below are hospitals in our area.

**Safety for you & your baby comes first, you will only be asked to transfer in the interest of your safety**

If you have any questions about the possibility of transferring to another hospital, ask your midwife.

You have the right to choose any place of birth including outside Humber and North Yorkshire.

**Scan the QR codes to access video tours of each site**

Scarborough  
Hospital

Harrogate  
Hospital

York  
Hospital

Scunthorpe  
Hospital

Hull Hospital & alongside  
Midwifery Led Unit

Grimsby  
Hospital

## Neonatal Transfer

Sometimes it is necessary to transfer during pregnancy or just before birth to ensure your baby is born in the optimal place to provide the care they need. Some babies will need to transfer after birth if they need more specialist or surgical care. Scan the QR code to watch a video on neonatal care and why you or your baby may be transferred between hospitals.
